### SUMMARY

A dedicated and passionate 22-year-old software engineering student with a strong foundation in both front-end and back-end web development. Currently pursuing a Pearson Level 5 Higher Diploma in Computer Science at Lithan EduClassS University. My goal is to leverage my skills and knowledge to become a proficient full stack developer, capable of delivering robust and innovative web applications.

### EXPERIENCE

#### Front End Developer 2023

##### Self Employed

- Developed a dynamic and responsive restaurant website as a Front-End Developer, using HTML, CSS, Tailwind CSS, and JavaScript.
- Integrated Google Maps API for location services to enhance user experience.

#### Backend Developer 2023

##### Self Employed

- Designed and implemented a blog website using a tech stack that included CSS for styling, React.js for front-end interactivity, MongoDB for database management, and Auth.js for authentication as Full Stack Developer.
- Applied a number of built-in modules and Next.js to improve the application's functionality and performance.
